ABOUT

Innovative and results-driven Software Engineer with a strong background in back-end development, performance optimization, and agile processes. Proven ability to create high-performing applications with organized architecture. Skilled in troubleshooting, quality control, and client relations. Seeking to leverage expertise in technologies to contribute to the success of a forward-thinking organization.

EDUCATION

A Levels Certificate | Marina International School

2018 – 2020

- Grade: Distinction
- President of Students Union

BSc in Computer Science | University of The Gambia

2020 – 2024

- Google Developer Students Club - Co-Lead
- Logistics Minister for School of ITC

EXPERIENCE

Junior Software Developer | ZigTech

JANUARY 2024 – PRESENT

- Focused on backend development with Node.js and Express.js.
- Developed systems and tools emphasizing performance and scalability.
- Collaborated with cross-functional teams to deliver high-quality software solutions.

Intern | ZigTech

JUNE 2023 – JANUARY 2024

- Assisted in the integration of backend software solutions.
- Learned and applied various programming languages and frameworks.

Student Developer | Medical Research Council

AUGUST 2022 – JANUARY 2023

- Worked closely with the research team analyzing data.
- Worked on Developing a staff support application using PHP and PHPmyadmin.

Google Student Developer (Co Lead) | University of The Gambia

JULY 2023 – 2024

Working to introduce the university for the google developers' students club. We look forward to creating workshops and hackathons etc, that will bring developers together and grant them more opportunity to network and show off their skills

Logistics and Welfare Minister | University of The Gambia – School of ITC

2023 – 2024

Spearheading all planning of functions and events organized by the school. Listening to the problems of students and see how best I can help them. Collaborating with other schools to bring students social and academic events.

Volunteer | YMCA

2017 – 2019

Helped Volunteer for a kid's summer camp. I would organize games for the children, help plan events and trips and basically chaperone the children to learn but have fun with it. This has helped me to work with people of different age groups and have good communication skills.

KEY COMPETENCIES

- **Software Development & Architecture:** Expertise in creating scalable and efficient software solutions.
- **Performance Optimization:** Proven track record of enhancing application performance.
- **Troubleshooting & Quality Control:** Strong skills in identifying and resolving software issues.
- **Agile Processes:** Experienced in agile methodologies to improve project outcomes.
- **Back-End Development:** Proficient in Node.js, Express.js, JavaScript, and TypeScript.
- **Skills:** Excellent problem solving skills, attention to detail, team player, communication.
- **Languages:** Fluency in English, Twi and Wolof

ACTIVITIES

I love playing football, basketball, volleyball etc. In general, I'm a very sportive person. I love helping in ways I can and always try to leave a good impression behind me. As former president of my high school student union, I learnt how to deal with the problems of the students and come up with ways to tackle them if possible or at least find a better alternative.
